ProSeries™ "Junior" LED Utility Luminaires

Our ProSeries Junior is designed specifically for retrofitting and upgrading "jelly jar" fixtures for utility lighting applications — swine, poultry, dairy cattle, fish, and other food and agricultural products. This 14-Watt LED Utility Luminaire Series provides high lumen output, maximum downward lighting, dramatically reduces energy consumption, and lowers your electrical expenses.

Upgrading your "jelly jar" light fixtures using our ProSeries Junior LED Utility Luminaire Series will lower your maintenance cost and gives you a better performing lighting system compared to outdated incandescent or compact fluorescent lamps, or an A19 LED lamp that is not intended or rated for enclosed applications.

LED UTILITY LAMP

The ProSeries Junior LED Utility Lamp (P/N: 15980) is a direct replacement for incandescent or CFL lamps currently used in "jelly jar" fixtures. The LED lamp upgrades them into energy efficient and cost-effective LED luminaires. It adapts quickly and easily to most jelly jar fixtures on the market.

LED UTILITY LUMINAIRE UPGRADE

Our ProSeries Junior Utility Lamp Upgrade (P/N: 15981) is a direct "hard-wire" replacement for light fixture bases that have been in service longer than five (5) years. Over time, deterioration from solid and hazardous waste pollution, moisture, UV emissions, and other environmental causes can start to occur.

LED UTILITY LUMINAIRE

As a complete luminaire, our polycarbonate and lightweight ProSeries Junior LED Utility Luminaire (P/N: 15982) is highly desirable for animal confinement or horticultural farming operations, or for expanding and modifying an existing operation. This luminaire includes an 18 cubic inch junction box with 1/2" and 3/4" knockouts.

Benefits

- Suitable for wet and damp locations.
- Use for applications that require wash-down.
- No glass and no lamp breakage.
- ProSeries Junior LED Utility Lamp (P/N: 15980) requires no rewiring; Includes E26 socket connector for direct, fast, and easy installation.
- Low energy consumption: Save 90% vs. incandescent lamps and 55% vs. CFLs.
- Integral heat sink prevents dust and insect accumulation.
- Return on investment in 12 months or less.

Features

- Polycarbonate, lightweight construction will not rust or corrode.
- Uniformly distributes a 120° spread of glare-free lumen diffused light.
- Instant start, no flickering.
- Mercury free; no UV emissions, protects the environment.
- LED Engine provides consistent lumen output over changing voltage conditions.
- Includes luminaire disconnect for safe servicing without exposure to electrical shock.
- ProSeries Junior LED Luminaire (P/N: 15982) includes 18-cubic inch junction box with 1/2" and 3/4" knockout combo.

ProSeries Junior LED Luminaire

ENGINEERED PRODUCTS CO.

ProSeries Junior LED Utility Luminaires Specifications			
Output Lumens	1440 Lumens	**Operating Temperature**	-4°F (20°C) to 113°F (45°C)
Power Consumption	14-Watts	**Applications**	■ Dry, Damp, or Wet Locations ■ Ceiling Mount Only
Amperes	.11 Amps	**Certifications**	ETL and Energy Star Certified
Operating Voltage	120-277 Volts via Built-in Constant Current Drive	**Surge Protection**	Built-in Protection up to 2,400 Volts
Power Factor	0.95 Minimum	**Dimmable**	No
Total Harmonic Distortion	<20%	**Lens Options**	White only
Correlated Color Temperature (CCT)	5000K	**Warranty**	5 Years at L_{70}
Color Rendering Index (CRI)	>82	**Construction**	Plastic only
Efficacy	103 lm/W	**Wire Harness Quick Connect**	2-Wire (Black, White)

PROSERIES JUNIOR: DETAILS

**P/N 15980:** Includes 14-Watt LED Lamp with Internal Heat Sink and E26 socket adapter

P/N 15981: Includes 14-Watt LED Lamp Upgrade with Internal Heat Sink, Silicone Gasket, and Junction Box Adapter
P/N 15982: Includes 14-Watt LED Luminaire with Internal Heat Sink and 18 Cubic Inch Junction Box
PROSERIES JUNIOR: DIMENSIONAL REFERENCES

P/N 15980: ProSeries Junior LED Utility Lamp

P/N 15981: ProSeries Junior LED Utility Luminaire Upgrade

P/N 15982: ProSeries Junior LED Utility Luminaire

PROSERIES JUNIOR UTILITY LAMP (P/N: 15980): RETROFIT CAPABILITIES

Before

Remove the globe from the luminaire base. Screw the connector into the socket base. Connect the luminaire disconnect.

After

PROSERIES JUNIOR UTILITY LUMINARE UPGRADE (P/N: 15981): RETROFIT CAPABILITIES

P/N 15981: Shown with 12 Cubic Inch Junction Box:

- P/N 15045 (.5" and .75" Knockouts)
- P/N 15046 (.5" Knockouts)
- P/N 15047 (.75" Knockouts)

P/N 15981: Shown with 19 Cubic Inch Junction Box:

- P/N 15049 (.75" Knockouts)

P/N 15981: Shown with 12 Cubic Inch SPIDERBOX:

- P/N 15246 (.5" Knockouts)
- P/N 15247 (.75" Knockouts)
