

SC6

Surface Mount Housing

Rev. Date: V5 10/11/2022

Product Description

The SC6 cylindrical surface mount housing is designed to accommodate all Cree Lighting 277V and GU24-based six-inch downlights in a variety of architectural applications. It is rated for use with luminaires that consume low energy, such as the LR6 and CR6, optimizing energy density calculations for easier energy code compliance and LEED certification. The SC6 housing also features a subtle, unobtrusive design that integrates cleanly into the interior space.

Product Specifications
