Mounting Method:

Fixture mounting positions: It is recommended that the LED fixtures be installed into a space no smaller than 3 in. x 3 in. (76mm x 76mm) For additional mounting practices refer to application notes on our website (www.gelightsolutions.com)

Fixture rotation: Light can be directed from 0 to 50 degrees in 10 degree increments in both directions with the help of 1) the rotation angle of the fixture, and 2) the mounting edge of the fixture track.
