

AL-EMER SERIES INFO SHEET

The AL-EMER Series conforms to UL 924 Emergency Lighting Standards. More than a battery backup, this fixture is compliant with NFPA 101 Life Safety Code when installed according to Jarvis guidelines.

PRODUCT HIGHLIGHTS

- All battery backup components incorporated within fixture
- Patented, "reversible" design
- Metallic reflector for maximum light output
- "Hands-free" wiring with knockouts on back & sides
- Available in durable bronze or white powder coat housing
- Compatible with 0-10V dimming controls
- Compatible with many photocells and motion sensors
